turning in Febru ry and expired suddenly during the following month.

A Baking Bowder Trick. All kinds of schemes and tricks are rea f w months of wedded bliss her husband unfair adva-tages over their neighbors. The latest and most dishonest of these that use of other bra ds that have an estab-Her face and general make up is that of lished reputation as the best and purest in one accustomed to refinement, and does not | the market, for the purpose of introducing their own. Their method, we are informed is to heat a can of baking powder of a wellknown brand over a lamp or stove, when, A reporter met the pastor last night on if there is a gas given off having the odor sc-called test, and the grocer who has a quantity on hand suffers a serious loss in

consequenca. If the intelligent consumer will stop a moment to think, she will readily perceive that this "test," if successful, proves nothing but the superiority of the baking powder tested. The aim of all baking powder Reporter-I believe there are two new makers is to produce an article that shall ing gas. The powder that does this with a moderate heat, at the same time evolving the largest quantity, is scientifically the

There is probably not an article prepared for food that cannot be manipulated to prove that something is wrong about it; It must be a mighty big spring, and by Judge Ryland for playing draw poker. and when a person goes into a kitchen or before a housekeeper who is not to be pre-P.-Yes, it is a lamentable fact and the sumed to understand chemical relations, and performs an experiment of even the simplest character, it is not difficult to impress one that something awful is the matter. As to baking powders, we could suggest a d zen tests that would be as ridiculous in giving a fair idea of their relative merits to an uninstructed mind as the one bere mentioned.

The true domestic value of a baking powder consists in its purity, wholscomeness, and leavening power. It is only the chemist with his chemical appliances, who can determine these qualities scientifically and exactly. Aside from this, the best test Jim is struck on semebody or some bing in the Sunday school wants some instruct for a baking powder is to try it in making bread; and see which makes the most and R.-I too must leave, as the police bave the best. To this practical test all the eatablished brands have been put, and houskeepers have yery generally made up their minds which they prefer, and the tricksters will find ultimately that a brand that has been a hous hold favorite for years, will not be displaced by reason of any tricks

And the pastor whisked away nervously
